

# BIOHIT Celiac quick test

RELIABLE FIRST-LINE DIAGNOSTICS

## Accurate results from fingerprick blood

BIOHIT Celiac quick test enables accurate and patient-friendly testing of celiac disease from only a drop of blood. The test is based on the detection of anti-tissue transglutaminase antibodies (tTG); (e.g. IgA, IgG, IgM), which delivers superior sensitivity, especially in patients with IgA deficiency.

## Easy testing at the Point-of-Care

The blood sample for BIOHIT Celiac quick test is taken as a fingerprick sample. The sample is placed on the test cassette along with a buffer solution. The test result is clearly visible within 10 minutes.

Cost-effective,  
proven performance

- Results in 10 minutes
- Fingerprick sample collection
- Easy-to-use lateral flow quick test

## Product specifications

- Sample: fingerprick blood, plasma or serum
- Test principle: immunological detection of anti-tTG antibodies (IgA, IgG and IgM)
- Kit components: lancet, micropipette, test cassette, buffer, instruction for use
- Storage: 2-8 °C
